## YOUR JOB(S)

### Job 1 — Receive & Process

Getting started video: <https://youtu.be/TJcue3iFRmw>

- Be at the delivery location on time to receive the flowers.
- Prep & fill buckets/vases and have them ready.
- Have all tools & supplies on hand.
- Lay a tarp on the floor or counter for easy cleanup.
- Organize flowers into buckets by recipe — e.g. all the stems for each bridesmaid bouquet in its own vase — so no one over-uses product.
- Sip coffee or rosé, depending on the time of day.

### Job 4 — Tear-down & Clean-up

- Confirm with your venue what time everything must be cleared out — and whether vendors can return the next morning.
- Decide ahead of time what's going home, what's being gifted to guests, and what gets tossed.
- Send centerpieces & bouquets home with family/guests (have a few grocery bags or boxes ready for easy transport).
- Collect and pack up all rented or borrowed vases, stands, and decor to return.
- Empty water from vessels before transporting so nobody ends up soaked.
- Compost or bin the spent flowers and greenery; recycle boxes.
- Do a final sweep for personal items, tools, and anything left behind — leave the space as clean as you found it.
