

CHAPTER SIX

ORGANIZING YOUR HELPERS

ORGANIZING YOUR HELPERS

HELP THEM HELP YOU

You will definitely have people willing to help. Trust us—everyone wants to help with the flowers. It can be such a fun, memorable experience!

Literally, ANYONE can do this. You don't have to have been a part of the "gifted and talented" program in grade school to qualify. If you can hold flowers and use a step above the training scissors, YOU ARE GOOD TO GO!

BUT... you need to give your helpers some guidance. Or, as we like to say,

YOU GOTTA PREP YOUR PEEPS!

No one likes walking into a situation they were not prepared for, so it's important you let your helpers know what you need from them, and ideally do this in advance so they don't feel stressed and put under pressure on "the day".

You can start by sharing our [Tutorial Page](#) with them, and getting their feedback on your flower timeline, especially if you are going to be delegating some of the work to trusted friends and family.

We've prepared some helpful worksheets for you to fill out and share with your helpers so everyone stays organized but first, let's figure out how many people you'll actually need to buy pizza for!

HOW MANY HELPERS WILL I NEED?

If you only need some bridal party flowers and a couple of centerpieces made, you don't need to call in the cavalry.

One size does not fit all here, so use the below chart as a starting point and decide what you feel most comfortable with.

Bridal Party	No. of Centerpieces	Ceremony Items	Number of Helpers
Bouquets + Personal Flowers	-	-	1 - 2
Bouquets + Personal Flowers	Up to 5	-	1 - 2
Bouquets + Personal Flowers	5 - 15	-	2 - 3
Bouquets + Personal Flowers	15 +	Floral Arch	3 - 5
Bouquets + Personal Flowers	20 +	Arch or Installation + Feature Arrangements	4 - 6

JOBS FOR HELPERS

Based on how many helpers you determine you need, these are the responsibilities we'd allocate to each of them.

Helpful Tip: Have all the supplies ready for your helpers including buckets, vases, floral snips, etc. Make sure they have everything they need to get the job done!

Job 1 - Receive & Process Flowers

- ① Be at the designated location for the flowers to be delivered.
- ② Prep & Fill buckets/vases and have ready for the flowers.
- ③ Make sure you have all the tools/supplies you need.
- ④ Lay out tarp on floor/counter for easy clean up.
- ⑤ Sip Coffee or Rosé, depending on the time of day.

Fun Part: Opening a box of flowers is like Christmas, but with flowers!

Homework: Have helpers read the Flower Prep section BEFORE the day the flowers arrive.

This can be broken into 2-3 categories of helpers depending on your wedding needs.

- Team Bouquets/Bridal Party
- Team Centerpieces
- Team Ceremony Flowers

Job 2 - Designing Flowers

- ① Review flowers recipes and watch Bloom Culture Tutorials BEFORE D-Day!
- ② Organise flowers into buckets or vases based on recipes. For example, if you have 4 bridesmaids, put all of the stems needed for each bridesmaid bouquet into a separate vase. This will make sure you don't overuse product
- ③ Watching tutorials with helpers as you arrange the flowers can be helpful, especially for the first bouquet or centerpiece. The first will take the longest but you'll pick up speed with each piece, we promise!
- ④ Start arranging via the suggested timeline and tutorials!

Helpful Tip: You or your most trusted/crafty helper can make a "prototype" or mock-up. People can use it for direction/look at while they make the additional pieces. That way, when someone inevitably asks "So... what are we going for here?" you can point & smile!

Fun Part: You get to arrange beautiful flowers with your besties!

Homework: Watch the tutorials, create a mock-up/prototype if you can, have all supplies and tools ready for helpers before they arrive. Make sure helpers have all the things they need to do their job!

JOBS FOR HELPERS

Continued

These can be two separate teams or the same teams.

Be sure to check out our section on “Flower Transportation” and review our suggested timelines.

Job 3 -

Transportation & Set up

Ceremony Set-up:

- Set out ceremony arrangements in their designated locations
- Make sure all water is fresh, clean, and full.
- If you are doing an installation
 - Print out recipes
 - Follow our suggested timeline instructions
 - If you are setting up your own arch/arbor, do that first
 - Follow our tutorials that best fit what you want for your ceremony.
 - Design ceremony florals
 - Clean up!

If you have pre-made arrangements that need to be set out, do that in time for photos, so roughly 1.5 hours before the start time is ideal, depending on the weather.

Be sure to fill out our Ceremony Set-up worksheet and write down time and location for your helpers. A good rule of thumb is to work backwards from the time of your ceremony to determine when set up needs to be completed by—and don’t forget to check in with your venue on what time you’re allowed to access the space!

Reception Set-up:

- Fluff/do quality control on arrangements after transportation.
- Top up water/make sure they have clean fresh water.
- Set centerpieces and decor on their designated tables.

Helpful Tip: Go over with your helpers how you’d like the reception set up. A diagram is super helpful.

Even if you are a part of the set up, still make a diagram and write out instructions so people know what to do and can execute their jobs without having to constantly ask for directions.

Be sure to fill out our Reception Set-up worksheet and write down time and location for your helpers. A good rule of thumb is to work backwards from the time of wedding to determine when set up needs to be completed by—and don’t forget to check in with your venue on what time you’re allowed to access the space!
